DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim(s) 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wu (6,074,296) in view of Ferchau et al. (4,899,254). Wu discloses all of the limitations of the claim(s) except for first and second fastening elements. Ferchau et al. discloses the presence of first and second fastening elements. See fig. 2, 51 and 47. Hence, one skilled in the art would find it obvious to modify the system of Wu to include the first and second fastening elements of Ferchau et al. for the purpose of increased stability. See fig. 3, of Wu. Regarding claim 4, see 53.

Response to Arguments

Applicant's arguments filed 9/15/05, with respect to the rejection(s) of claim(s) 1-8 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.

However, upon further consideration, a new ground(s) of rejection is made.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The provided references are representative of the state of the art that is applicable to the applicant's invention. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Derek S. Boles at (571) 272-4872.
